# “WHAT A CONCEPT”

“Clearaudio created something special with the Concept...it almost matched my reference SME 30 for detail, if not for absolute extension and transparency...a German product...composed entirely of proprietary parts, packaged to be foolproof to set-up and operate...we are dealing with something beyond the ordinary”

—Ken Kessler HiFi News July 2010

“Fantastic value from Clearaudio: what a Concept...I feel this table is the new benchmark in its price class.”

—Jeff Dorgay, Toneaudio August 2010

“Our 2009 Product of the Year...plentiful low-frequency action with poise and pace to spare...dynamic potency is never in doubt. If you feel the need for an outstanding turntable...don't think twice.”

—What HiFi August 2010

“Offers a hugely rewarding analog experience at a very attractive price...with its terrific German build and finish...the Concept strikes me as a hands-down bargain.”

—Wayne Garcia The Absolute Sound October 2010
